

## ***Excursion***

On September 21st, we had an event in Kawakami Park. It was a school excursion. Its aim was for different grades to interact with one another. Students who joined the excursion were the 1st, 2nd and 3rd-graders. The weather was sunny. The weather on that day was perfect for the excursion. This event was fun. It made us happy. We wanted to join it one more time.

The third grade students planned this event. We made each team and planned some games. This plan was the first time for us. We got confused. We did not think we could. But we managed to cooperate with other third grade students. As a result, this event was a big success.

We worked hard to plan and manage. And, we were really glad that everyone had a good time.

We enjoyed many recreations. First, we played “NG word game” in a group. It broke the ice. Second, “Dodge ball.” The game was exciting. There were no injuries, so it was very good. Third, “Word hunting game.” As the name tells, this game is a word hunting game. Everyone thought deeply and ran. It was crazy, but they looked excited.
